# ATTS Web Application User Instructions

1. When on the ATTS Landing page, the user will have 2 options – to either paste text

   in a text box or upload a .TXT file.

Paste the text you want to summarize here...

or

Upload a file

Summarize!

Automated Text Tagging and Summarization | About | ATTS © 2017
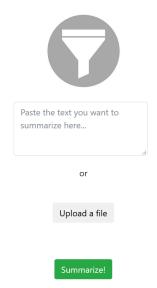

2. The user can paste raw text into the text box

fights tiger with a broom.
The RSPCA said it would
deter people from abusing
and neglecting animals.

or

Upload a file

Summarize!

3. And when the summarization button is hit, a new page will be displayed with the
results received from the API. Here we can see the short summary, the amount it
was reduced by and 5 keywords the algorithm extracted.

Summary

people in england who commit the
most serious crimes of animal
cruelty could face up to five years in
prison, the government has said.

Reduced by 20%
